

13 Easy Steps: How to record your video presentation?

1

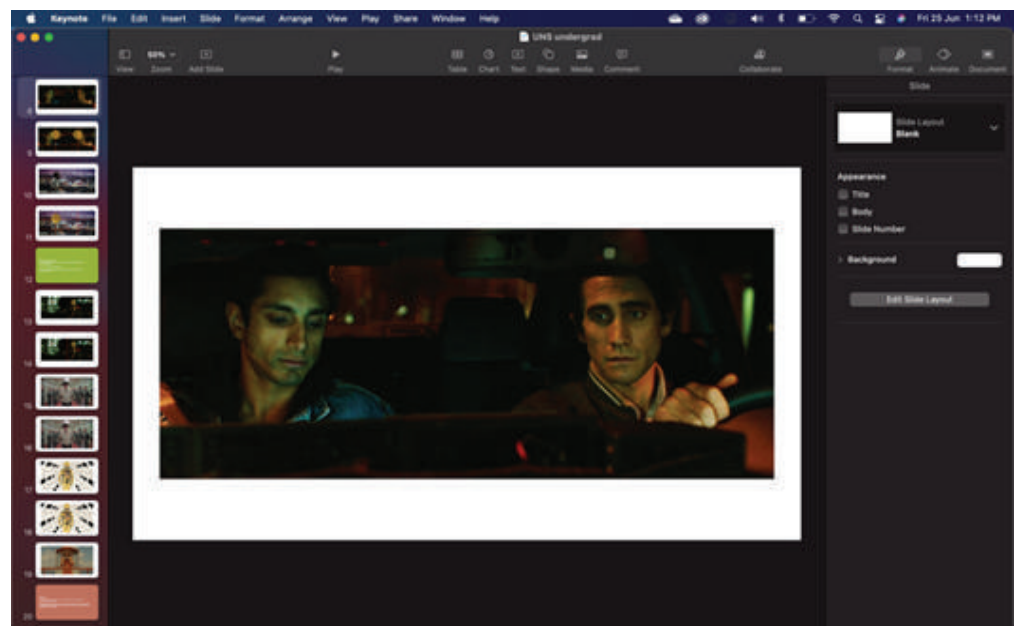

Webex Meetings

Open your video conference apps
*(You can use other apps to record
your video presentation)*

2

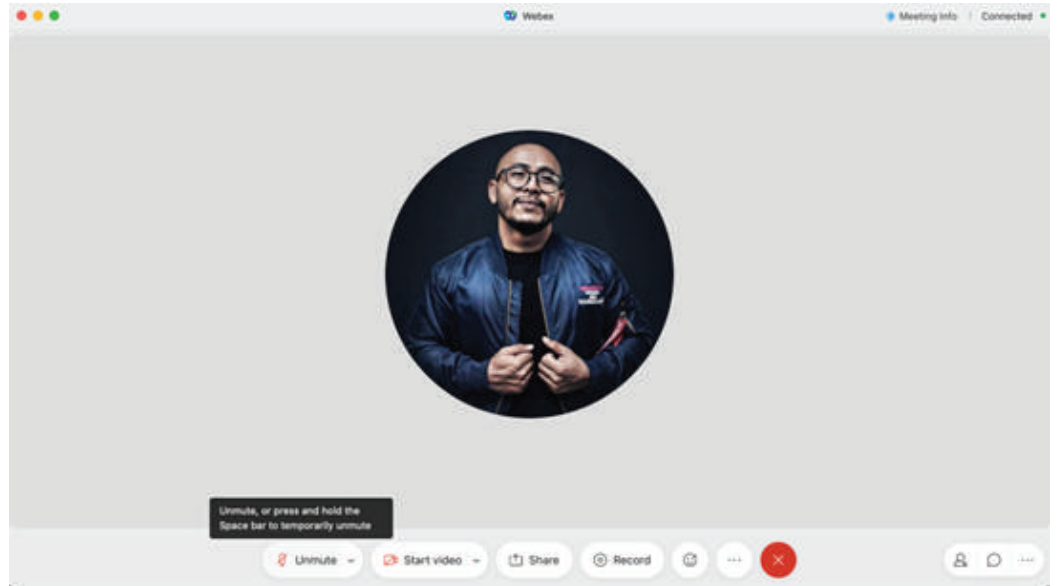

Start meeting

3

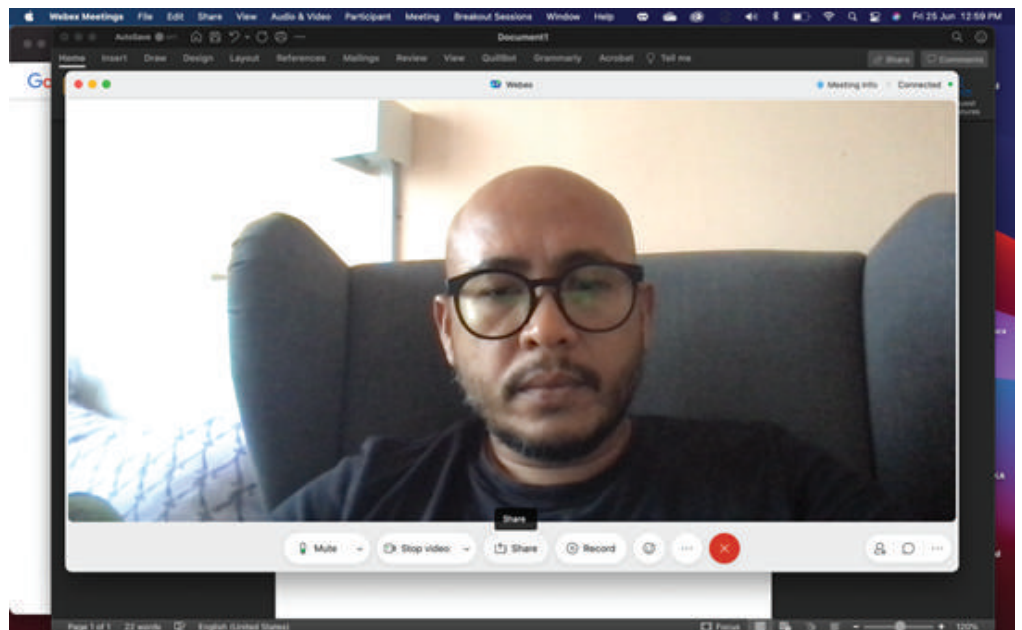

Open your deck (slide presentation)
eg. Powerpoint, keynote

4

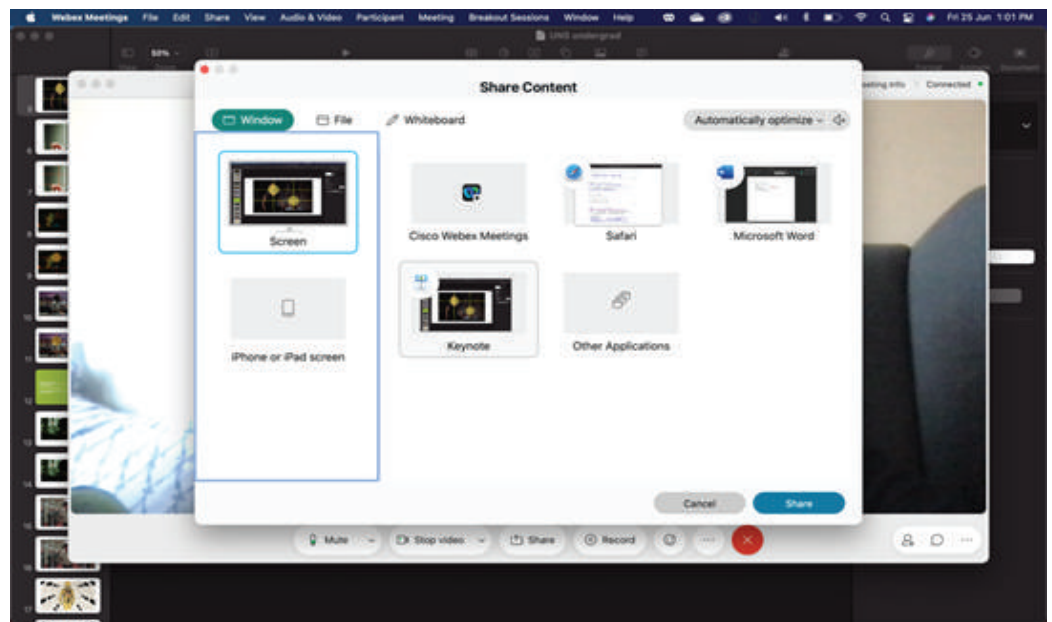

Turn on video and audio

5

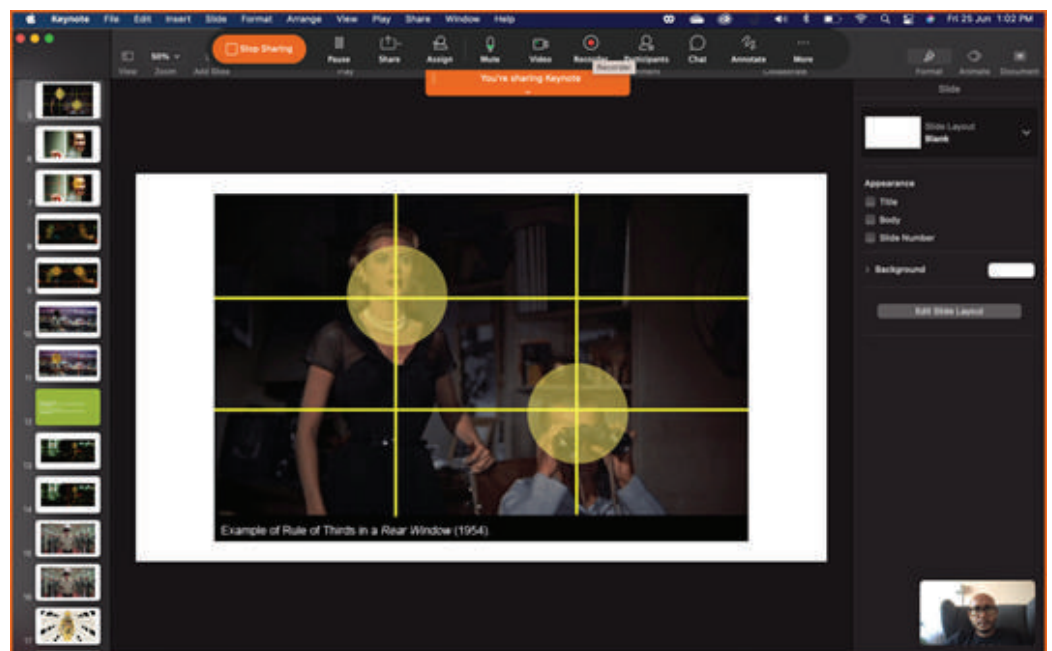

Click share button

6

Select the deck (slide presentation)

7

Record the session

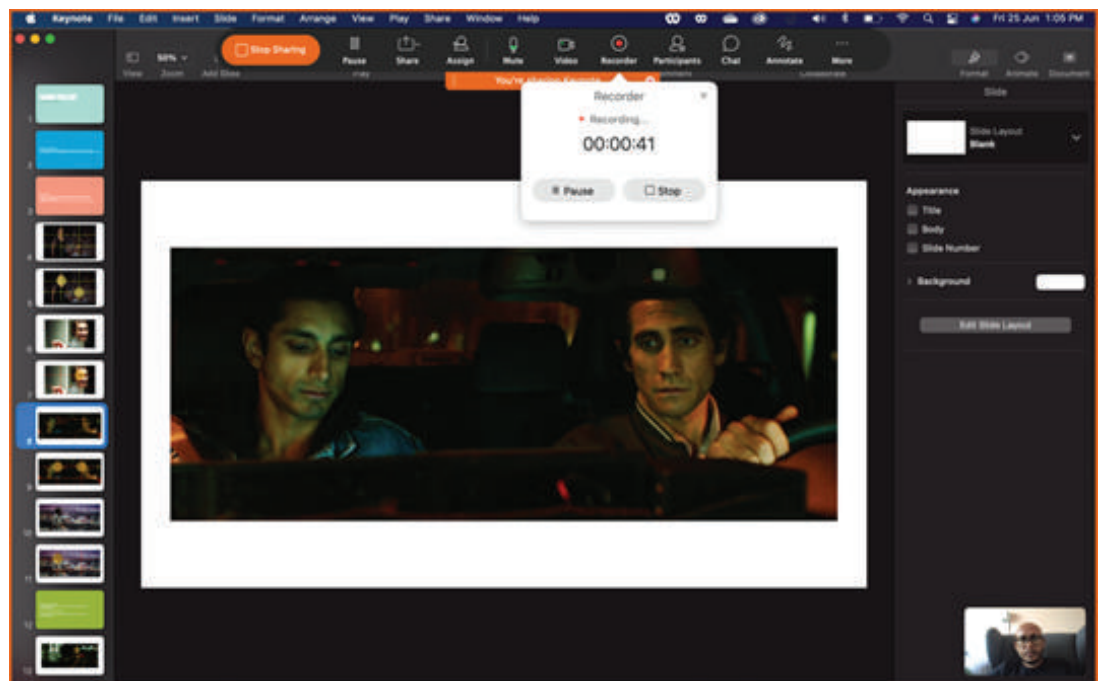

8

Choose the save location

9

Start the presentation

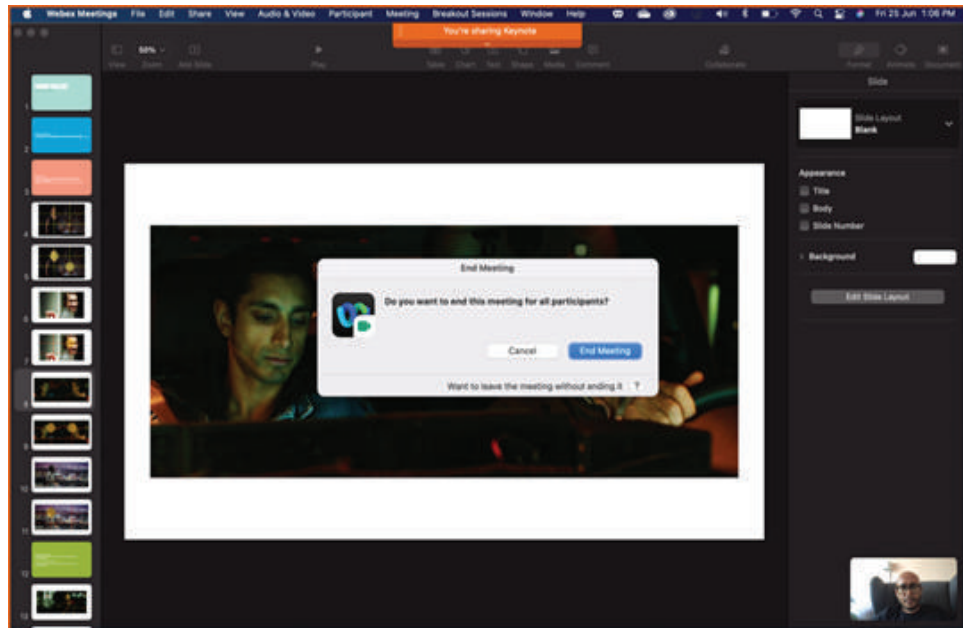

10

Once complete, stop the record button

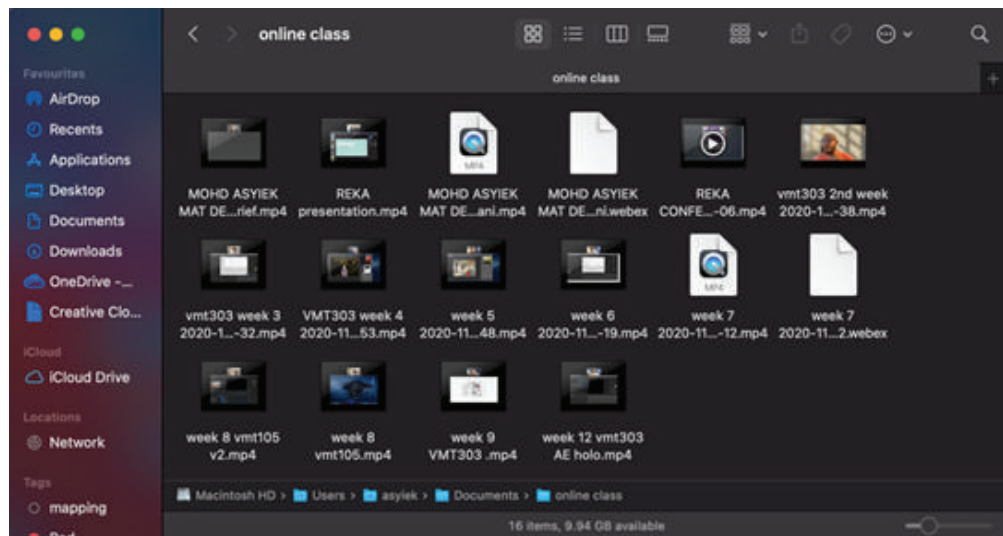

11

Quit the apps

12

The recording file will automatically place in your save location

13

Then you can email to rekaseniism@gmail.com and share the file with us!
